

Alcochem Minerals, the Netherlands

Alcochem Minerals (AM) is an international service organization founded in 1974, we build bridges between suppliers and customers. Together with our partners we can offer the complete control over the supply chain and using specific (logistical) knowledge, we create transparency in quality, delivery, lead-time and the financial consequences within the supply-chain.

AM specialized itself in the home cleaning, skincare, perfume and color cosmetics markets. Together with our supply and customer base, AM built up a strong portfolio.

With our warehouse spread across Europe we can deliver your required materials within 24-48 hours. We can also offer grinding, sieving and repackaging of granulated products and blending, mixing and reloading for Liquids, both for IADR and for non-ADR products.
